# Intelligent devices that unlock powerful results

The office landscape has changed tremendously in the last few years. As more companies adopt hybrid and borderless work, digital workflows are opening up new possibilities for better information sharing, in-office space optimization, efficiency, and cost-effective operations.

At the same time, the need for more robust IT and print infrastructure, including improved software and hardware solutions to address security challenges, has emerged — and the pursuit of responsible environmental stewardship has never been more important.

Ricoh's latest generation of IM C Series is tailored to support businesses like yours in optimizing a digitally-enabled workplace with technology designed to enhance productivity and protect your data. These intelligent devices lead the market in environmental performance and offer seamless scalability to adapt to your changing business needs. They also provide employees an enhanced experience with a simple-to-use interface, the ability to create high-quality color output on-demand at a reasonable cost, and the versatility to easily transition between paper and digital workflows.

The IM C Series has everything you need to capture, print, connect, and keep your information secured to unlock powerful results, and build the ideal hybrid print infrastructure for your business.

Support your sustainability goals with leading Typical Electricity Consumption (TEC) values and more recycled plastic

Protect your business' data and intellectual property

Get the latest device technology and customization options to match your needs

Work more efficiently with improved usability and productivity

#### Designed for your workplace today — and tomorrow

Today, the need for a seamless print infrastructure is an essential part of a successful digital workplace strategy to support employees wherever they are.

With Ricoh's intelligent devices, you can digitize your document workflows and gain fast and secured access to your information when needed. With standard copy, print, and scan capabilities, you can customize your device by adding software solutions, apps, and cloud services to support every stage of your business growth.

The newest generation of the IM C Series offers users a seamless experience and great results. From brilliant color output to enhanced data security, scanning, and paper handling, these devices will help you elevate the way work gets done.

## The new benchmark in sustainability

As an industry leader in environmental performance, we make a difference not just through our own commitments, but by supporting your targets, too. We help you save energy and minimize your environmental footprint and have also added enhanced scanning features to promote more digital workflows that help reduce paper consumption and waste.

#### More energy savings

Toner fixing accounts for up to 70% of a printer's energy consumption. Our innovative IM C Series offers significantly lower energy usage through a new toner that fuses at a lower temperature. Power consumption during Sleep Mode has been reduced to help you achieve a smaller carbon footprint and lower costs.

#### More recycled plastic

Designed for sustainability across its lifecycle, the new IM C Series incorporates the use of 50% post-consumer recycled plastics, while PET toner bottles are produced from 100% recycled plastics. Plastic packaging is reduced by 54% thanks to the use of more sustainable materials and removal of excess packaging.

### Supporting a circular economy

The new IM C Series is designed to help reduce environmental impacts at each stage of the product lifecycle — from production, usage, and end-of-life collection and recycling.

## **Reliable protection of your data**

Hybrid work has enabled new ways of employee collaboration and created opportunities for increased mobility, efficiency and flexibility. Inevitably, it also raises challenges when it comes to protecting intellectual property and sensitive data. Our IM C Series help you mitigate risk by placing the most advanced security technologies right at your fingertips. Built with the latest operating system, these new devices integrate a new admin management system and Ricoh's Always Current Technology for extra peace of mind.

#### Enhanced privileged account control

This feature gives you more freedom when creating MFP administrator roles. The number of admins is no longer limited to just four, eliminating risks related to sharing IDs. You can assign different privileges to each role and link it to your user ID system, including Windows and LDAP platforms.

#### Trusted platform module support

The new IM C Series incorporates the lastest version (2.0) of Trusted Platform Module (TPM) as standard. Stronger technology improves encryption strength and protects important data such as passwords and encryption keys stored in the device.

#### **Multi-factor authentication**

With optional components, multi-factor authentication (MFA) can be enabled on the printing devices to help minimize the risk of data breaches.

## Technology that evolves with you

As your business grows, you need the right technology to take advantage of new opportunities. And as your digital transformation progresses, you need the right partner to help you stay ahead. Along with Ricoh's trusted quality and technical expertise, our eco-friendly intelligent devices can scale along with your business needs — and deliver value as your business grows. Underpinned by a secured cloud infrastructure, the IM C Series offers customization, flexibility, and reliable security and service updates that are just a download away.

#### Scalable and customizable

Discover the freedom of smart scalability. With the new IM C Series, you have the flexibility to tailor your device to suit your business needs. Simply download the latest features and upgrades as you need them. Add software solutions, applications, cloud services and customize your device. With the right digital workflow solutions, you can help your employees work faster, smarter, and more securely at every stage of your business growth.

#### Automatic security and software updates

Forget the days of buying a new device, waiting until the end of your contract, or contacting a technician every time you need updated technology. With Ricoh's Always Current Technology, new features, applications, and security updates can be downloaded and installed directly to your device on request, keeping you up to date with the latest versions and avoiding downtime.

### **RICOH Smart Integration (optional) and Smart Device Connector**

Ricoh's Smart Integration allows you to personalize and enhance the capabilities of your IM C Series device with applications and solutions readily available from the cloud. The free Smart Device Connector app facilitates connecting mobile devices securely to your device, allowing users to easily scan, print, copy, and share documents from their smartphones and tablets. Save time, improve productivity and automate repetitive document workflow tasks with the push of a button. Now you can quickly route your documents to the right place, in the right format and with the right file name.

### **RICOH Streamline NX® (optional)**

Ricoh's Streamline NX is a powerful suite of scalable, integrated document management applications and tools that allow you to implement standardized intelligent solutions in every office, globally. Streamline NX can also simplify device and document management tasks such as administration and reporting, user authentication, and more to help you cut operational costs, improve security and compliance, and make process improvements.

### **RICOH CloudStream (optional)**

Ricoh's CloudStream allows you to manage your print infrastructure with ease. It is an all-in-one hybrid print platform that enables companies of all sizes to benefit from the agility and innovation of cloud technology. Streamline your print infrastructure, eliminate print servers, and reduce your IT burden with this cost-effective SaaS solution.

# Enhanced quality, access, and productivity across digital and print

The IM C Series is designed to create the ultimate employee experience, with features that save time and increase efficiency. Its digital technologies give you the power to streamline workflows — making processes smoother and more efficient while encouraging better collaboration. New peripherals enhance paper handling while upgraded hardware ensures quick, reliable performance. The enhanced user interface features a simple and easy-to-use operating panel, making the new IM C Series an excellent hub for your information management needs.

#### **Optimized scanning features**

With a combination of powerful scanning functions and an intuitive user interface, daily scanning and copying routines are easier than ever before. High-quality and high-speed scanning makes it possible for employees to share files quickly and seamlessly.

#### **Third-generation Smart Operation Panel (SOP)**

Our familiar, user-friendly operation panel has been enhanced for an even more intuitive and enjoyable experience. Brightness, touch sensitivity and position detection have all been enhanced for optimal access to the device's many resources and functions.

- · Upgraded OS for better security and usability
- Integrated card reader cover option
- · Greater touch sensitivity
- Tiltable for better visibility and accessibility

#### New efficiencies in paper handling

New peripherals, including wide media handling and finishing options, allow for the creation of a broad variety of sophisticated marketing materials such as brochures, booklets, and presentations in-house. The new single-pass document feeder scans two-sided documents in one pass and is built to handle high scan/copy volumes, smaller-sized and special paper types.

## Find your perfect fit – meet the new generation of IM C Series intelligent devices

The new IM C Series combines a simple and sophisticated design with strong technical capabilities to match your way of working. Take a closer look.

#### IM C2510

## An intelligent multifunction device built for your modern office and workstyle

- Prints up to 25 ppm, copy, scan, fax (optional)
- 1200 x 1200 dpi max print resolution
- Paper capacity up to 2,300 pages
- Embrace a suite of multifunction capabilities for a competitive edge

#### IM C3010/IM C3510

## An intelligent multifunction device that keeps pace with how business gets done today

- Prints up to 30 or 35 ppm, copy, scan, fax (optional)
- 1200 x 1200 dpi max print resolution
- Paper capacity up to 4,700 pages
- Engineered to work the way you do work today and tomorrow

#### IM C4510/IM C6010

## With impressive speed and productivity, this intelligent multifunction device helps keep your business moving

- Prints up to 45 or 60 ppm, copy, scan, fax (optional)
- 1200 x 1200 dpi max print resolution
- Paper capacity up to 4,700 pages
- · Keep your teams in sync, even on the go

All models shown with optional accessories
